Crystal Report Training for Advanced

What is Crystal Report ?

SAP Crystal Report is an analytics and reporting software solution for small and medium-sized businesses. It has the capabilities to extract data from any application database and produce various types of reports and analytics results that give a clear picture of business performance.

Who should attend ?

- ✓ Anyone involved with data extraction for reporting and analysis and for team members who wish to upgrade their knowledge to become more productive.

5 reasons why you should attend this hands-on training session

- ✓ Crystal Reports is a BI tool which helps business leaders to develop advanced level reports and take accurate/profitable decisions.
- ✓ Crystal Reports help you to build personalized reports in your preferred language and format.
- ✓ You will learn new skills to make you more productive and open new opportunities.
- ✓ Crystal Report helps you to connect to multiple data sources like HANA view, Relational Connection, Excel Spreadsheets.
- ✓ There will be extensive hands-on exercises.
